**A place where we call HOME!**

**Welcome to our  
Web Site...  
Sanctuary Point A  
Concerned Citizens  
Newsletter!**

[sanctuarypointaconcernedcitizensnewsletter.com](http://sanctuarypointaconcernedcitizensnewsletter.com)

After three years of producing, and distributing our monthly, printed newsletter copies, Kate and myself have decided to branch out into the Wide World Web (WWW) and spin a bit of our own web, which we hope to 'capture' the attention of a much larger following of the Concerned Citizens within our communities, where ever our Web Site is viewed!

Sanctuary Point will always be our home base and we do not intend dropping the Sanctuary Point from our Newsletter name, as it has been "a place where we call home," for 30 years and issues will be selected on the basis... "If what can happen in someone else's community, could happen in Sanctuary Point! Then we believe this will be a concern for our community... Also!"

We have purposely chosen the same name of our newsletter, for our web site address and perhaps the 42 letters followed by the .com will test your typing ability. If you are reading this newsletter on our web site, then allow me to not only congratulate you in finding your way to our site, we also welcome you to the site and with further construction of the site and your interaction with your comments on any aspect of the site, perhaps together! With the help of the many contactable departments at our disposal, which at times we are so quick to criticize and blame, with their help, together we can right some of the wrongs within our communities and also find time to give praise to those departments, who help us to right the wrongs!

For those who are reading a hard copy of this newsletter and are game enough to try your skills on the key board at home or at the library, try typing in lower case...

**sanctuarypointaconcernedcitizensnewsletter.com**

And I will also, be pleased to welcome you to my web site!

Allow me to introduce you to my new calling card...

Allow me to introduce you to **SHOALHAVEN LOCAL AREA COMMAND NSW POLICE BICYCLE PATROL UNIT** which ever way you look at them, they are here with the full backing of the **LAW** and if you don't welcome them in your community... Then, you might, just have something to hide! And that's why they are here!

On the 16th January 2014 I was pleased to see the unit alongside of the Frances Ryan Reserve in Sanctuary Point. Being a two person unit, Snr Const Paul Nancekidell from Berry Precinct and Snr Const Craig Thompson from Huskisson Precinct, gave me the impression that this unit was determined to make a difference... **In my January 2014 volume 36 I reported on a concern of some residents in Greville Avenue, one being concerned for a tree on a next door private property and the other on trees on Council property, which were a concern for the residents living within the 45 degree line of suspect trees and falling branches. Although I believe I was only reporting on, perhaps three trees, which were of a concern and when I mentioned that a lot of trees in Sanctuary Point are remnants from old forest trees, I did receive some feed back, of how trees are necessary for the ecological survival and well being of this planet.**

**Respectfully, I do appreciate the ecological value of trees and without them, we would not exist in our present state! However, as we develop, management of most things, must consider the potential dangers to human life and everyone of us who see that danger, who does nothing to prevent it, must live with its consequences... I am merely trying to prevent a danger to human life... Is that so wrong?**

**Since my article in January 2014 I would like to present to you the following photos, of the tree that dropped its branches onto the vehicle of unsuspecting humans at a car park at Greenfields Beach, Plantation Point. No one was seriously injured, but! Why do we keep on waiting, until another human life is removed from this educated planet! That we intellectual humans all call home?**

**If you see something that looks wrong...  
Report it! One day it might be your life,  
that you save!**

**Photos courtesy of Michael Pignataro ~ Essential Films.**

**Excuse me** if I go out a little bit too far out on a limb for some! But I believe in giving praise, where praise is due and I want to thank Mayor Joanna Gash, the Councillors, General Manager Russel Pigg and the Men and Women who keep the Shoalhaven City Council operating for the people and accessible by the people of the Shoalhaven.

Last month I reported on a tree with a lean and a drain with an attitude, in a quiet coastal village of the Shoalhaven, on the banks of the St Georges Basin in a council reserve between two residential properties in MacGibbon Parade, Old Erowal Bay.

No doubt, that there were many phone ins to council on this one and I am but one of many concerned citizens, who exercised their privilege, to report a danger, to make our communities a safe place to call home!

Well! I am pleased to say, that all of your concerns have been heard and as a Council for the People, I believe, that the Shoalhaven City Council has responded, to the concerns of the residents of Old Erowal Bay and the photos I have taken, are to compliment the actions council has taken at MacGibbon Parade Old Erowal Bay.

Photo one , shows the danger of the falling tree, has been eliminated and all of the other photos will show you that council has addressed the drainage problem temporarily, by securing the site, for further consideration of a more permanent solution... I believe a few more pipes and close it in, would eliminate a long overdue solution to this obvious problem! But who am I to give my thoughts to council! Apart from being... One of the People!

**Shoalhaven City Council on this concern you have my Praise and you aught to be CONGRATULATED!**

## Shoalhaven Libraries providing free magazine download service

Shoalhaven Libraries are providing patrons with a new digital download service providing members access to a wide array of magazines from anywhere in the world.

The new Zinio service will allow library members to download the latest edition of 24 popular magazine titles to their tablet, smartphone or computer by simply using their membership details.

Mayor, Joanna Gash said the new download service would provide library members with 24 hour free access to a wide range of popular magazine titles including titles such as Vogue, Wellbeing, Popular Science, Yen and Waves.

"Council is extremely excited to provide the community with a new and innovative free magazine download service," said Clr Gash.

"This new program will allow library members the opportunity to download the latest magazines with no holds, no checkout periods and no limit to the amount of magazines that can be downloaded.

"With a wide variety of magazine titles available for download, this free service will allow library members to connect with their favourite magazines from anywhere in the world."

"This exciting new service compliments Council's existing Overdrive program, the popular ebook and audiobook download service."

For more information on the Zinio service please visit [www.shoalhaven.nsw.gov.au](http://www.shoalhaven.nsw.gov.au).

**The funds for this purchase came about because one very local gentleman in 2008 decided to say no to cancer and over the years, Dick Manwarring has kept his word, by delivering this package for the VIP passengers it will transport from the Bay & Basin, to their treatment at the cancer care centre and return them back to their homes in the Bay & Basin.. in comfort.**

While strolling through my internet one day, I came across a CCTV Register and to my surprise, I wonder why? This register is promoted by the NSW POLICE FORCE... I believe it is promoted by the NSW Police Force, because they know that it has the potential to assist them in their enquires, when a CRIME is committed.

Why do we keep on listening to the baggers of CCTV, who underestimate the true potential of CCTV, if not for Political or other motivational purposes., them what are the arterial motives behind their objections?

I have said it before..."If I am sick, I see a Doctor," If I want to see Law and Order in my home town, I trust in our NSW Police Force, as less than that!... The disease will spread!

**...through the  
CCTV Register**

**WHAT IS THE CCTV REGISTER?**

The CCTV Register is an initiative of the NSW Police Force. The purpose of the Register is to record the location of closed-circuit television (CCTV) camera systems, and other related information, across the State.

**WHY IS THERE A NEED FOR A CCTV REGISTER?**

CCTV footage has become an important investigative tool for police. It is regularly used to investigate and solve, often serious, crimes and has proven to be very useful in court when used as evidence – a picture says a thousand words.

The most notable example of the importance of CCTV footage was in relation to the London terrorist attacks in July 2005. Using CCTV footage, police were able to rapidly identify the attackers and progress their investigation.

The problem to date has been knowing where these cameras are located. The objective of NSW Police Force is to establish an accurate and comprehensive register that identifies the location of as many CCTV systems as possible across NSW.

**HOW WILL POLICE USE THE CCTV REGISTER?**

All data will be stored in a secure database owned and operated by the NSW Police Force. Authorised officers will be able to access the Register for law enforcement purposes eg; investigating crime.

No information will be provided to third parties.

**HOW CAN YOU HELP?**

The mission of the NSW Police Force is to have the police and the community working together to establish a safer environment by reducing violence, crime and fear.

If your business operates a CCTV system, you can help the police solve crime by registering your details.

There are two ways you can register:

- 1) Online via the NSW Police Force Internet site. (Refer to the web address located on the reverse of this brochure).
- 2) Manually via a 'CCTV Register Form'. These forms are available either online via the web address or via your local Crime Prevention Officer. Completed forms can be handed to your local Crime Prevention Officer or fax to the VIEW Team on 02 8835 7679.

**WHAT INFORMATION IS REQUIRED TO REGISTER?**

To register, we require:

- The name and location of your business;
- Contact details for the owner and operator of your CCTV system; and
- Some details regarding your CCTV system (eg. number of cameras installed, areas covered by the cameras, retention period for recorded material, etc.)

The registration form should take approximately 10 minutes to complete.

**WHAT DO I DO IF MY DETAILS CHANGE OR IF I WISH TO HAVE MY DETAILS REMOVED FROM THE CCTV REGISTER?**

Having access to accurate information is critical to any police investigation. Should any of your details change, kindly notify us in writing via the contact details listed on the reverse of this brochure.

Registration is purely voluntary. Should you wish to have your details removed from the Register, you may do so anytime by notifying us in writing via the contact details listed on the reverse of this brochure.

On Wednesday 5th February 2014 around 0800 as I was packing my car to leave for my one day a week golf game, a vehicle quietly pulled up in front of my home, in Ridglands Drive Sanctuary Point and a gentleman alighted from his vehicle and commenced doing what he was obviously very proficient with, as he went about doing a thorough inspection of the telegraph pole , both!...An above and underground inspection was carried out, very professionally by **Mathew Keating**, who himself is a local Sanctuary Point resident... (no relation to Keating PM he informed me,) Mathew works for the
